## ABOUT THE MINIBROW LIGHT

The FireTech Double Stack MiniBrow Light is an extruded LED work light designed for the industrial and emergency response marketplace. The MiniBrow series is a single circuit fixture with multiple optic choices. 10° Spot optics are optimized for long distance projection. 60° Flood optics work great on the rear and for general purpose illumination. The FireTech Combination Optic pattern uses 1/3 Spot, 2/3 Flood optics and gives you a hybrid beam pattern without sacrificing optic efficiency. Double Stack MiniBrow fixtures are the ideal solution when you're restricted on space but want to maximize light output, and are backed by the industry's only LIFETIME Advance-Exchange Warranty
