

7X19 DOME LIGHT

FT-IDL-719RCT

KEY FEATURES:

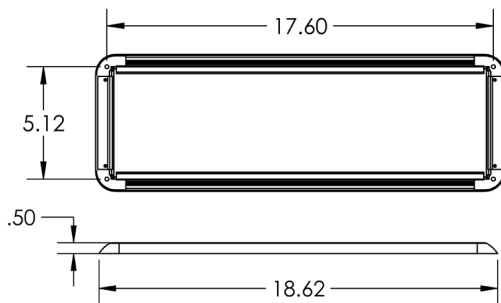

- Side Firing LEDs Eliminate Single Focal Point
- Diffused Lens for Optimal Light Distribution
- Thin Low-Profile Light Fixture

ABOUT THE 7" X 19" INTERIOR DOME LIGHT

The 7" x 19" Interior Dome Light is a purpose-built interior fixture that uses a multi-layered lens to deliver a smooth diffused light. The prismatic diffuser is coupled with side-firing LEDs to diffuse the light evenly across its surface and eliminate the perception of a single focal point. Scattered light is emitted in a diffused hemispherical pattern which provides the perfect beam pattern for interior compartments like the back of an ambulance. This fixture can be coupled with a power supply and relay (sold separately) to operate flexibly on DC, AC, or both types of electrical system.

DIMENSIONS

PART#: FT-IDL-719RCT

RAW LUMENS	1300
EFFECTIVE LUMENS	772
DIMENSIONS	18.62" X 6.3" X 0.50"
WEIGHT	1 LB.
AMP (@12V DC)	1.0A
WATTS	12W
INPUT VOLTAGE DC	10-30V DC
LED COLOR	WHITE
CERTIFICATIONS	ECE R10; AMD 016
