

20 LED WORK LIGHT

FT-WL-X-20-**-*

KEY FEATURES:

- Patented thermal technology to prevent overheating
- Can withstand vibration up to 21G_{rms}
- NFPA Compliant at the tip of an Aerial

ABOUT THE 20 LED WORK LIGHT

The WL-X 20 LED Work Light offers outstanding light output in a compact design which can be easily adjusted, with either of the supplied trunnion or single bolt bracket options. High-quality construction and components enable the WL-X series to withstand vibration up to 21Grms. Built-in reverse polarity protection helps prevent accidental damage caused by incorrect installation. Electronic thermal management ensures that if the light is subjected to a massive heat overload, that a self-protection protocol is engaged to reduce the light output, until such time as the heat overload retreats to normal parameters.
