FT-WL-X-9-\*

## KEY FEATURES:

- Patented thermal technology to prevent overheating
- Can withstand vibration up to 21G<sub>rms</sub>
- NFPA Compliant at the tip of an Aerial

## ABOUT THE 9 LED WORK LIGHT

The WL-X 9 LED Work Light offers outstanding light output in a compact design which can be easily adjusted, with either of the supplied trunnion or single bolt bracket options. High-quality construction and components enable the WL-X series to withstand vibration up to 21Grms. Built-in reverse polarity protection helps prevent accidental damage caused by incorrect installation. Electronic thermal management ensures that if the light is subjected to a massive heat overload, that a self-protection protocol is engaged to reduce the light output, until such time as the heat overload retreats to normal parameters. What really makes the WL-X-9 stand out from its siblings is that just a single fixture of this light is NFPA compliant at the tip of an aerial.
