ABOUT THE MINIBROW LIGHT

The MiniBrow Series uses the same core extrusion technology as the FireTech Brow Light, but are offered as single-circuit solutions for use in virtually any other area of a fire apparatus. This means you can have the reliable and bright light of our brow lights wherever you choose to mount the MiniBrow series on your vehicle. With two separate mounting options, trunion and pedestal, you can be sure that your scene lighting solution will fit on your apparatus.
