PURPOSE BUILT FOR EMERGENCY VEHICLES

## KEY FEATURES:

- DOT Compliant Tail Light Modes
- Can Be Purchased in Kits or Individual Fixtures

2 Flash Patterns

7 Flash Patterns

On / Off

## STOP/TAIL, TURN, BACKUP LIGHTS

The Guardian® Jr Stop/Tail, Turn, and Backup lights are an expansion of the Guardian series of fixtures. They can be purchased individually (Stop/Tail, Turn, or Backup), or can be purchased in kits with triple and quad tail light housings. These fixtures are a light performance addition to your apparatus, allowing you to choose all fixtures from one lighting manufacturer for the entire apparatus. As always, all FireTech fixtures are backed by the industry's first Advance Exchange Lifetime Warranty.
